

Draft 2010 Clean Communities Plan

(Formerly the Air Toxics Control Plan)

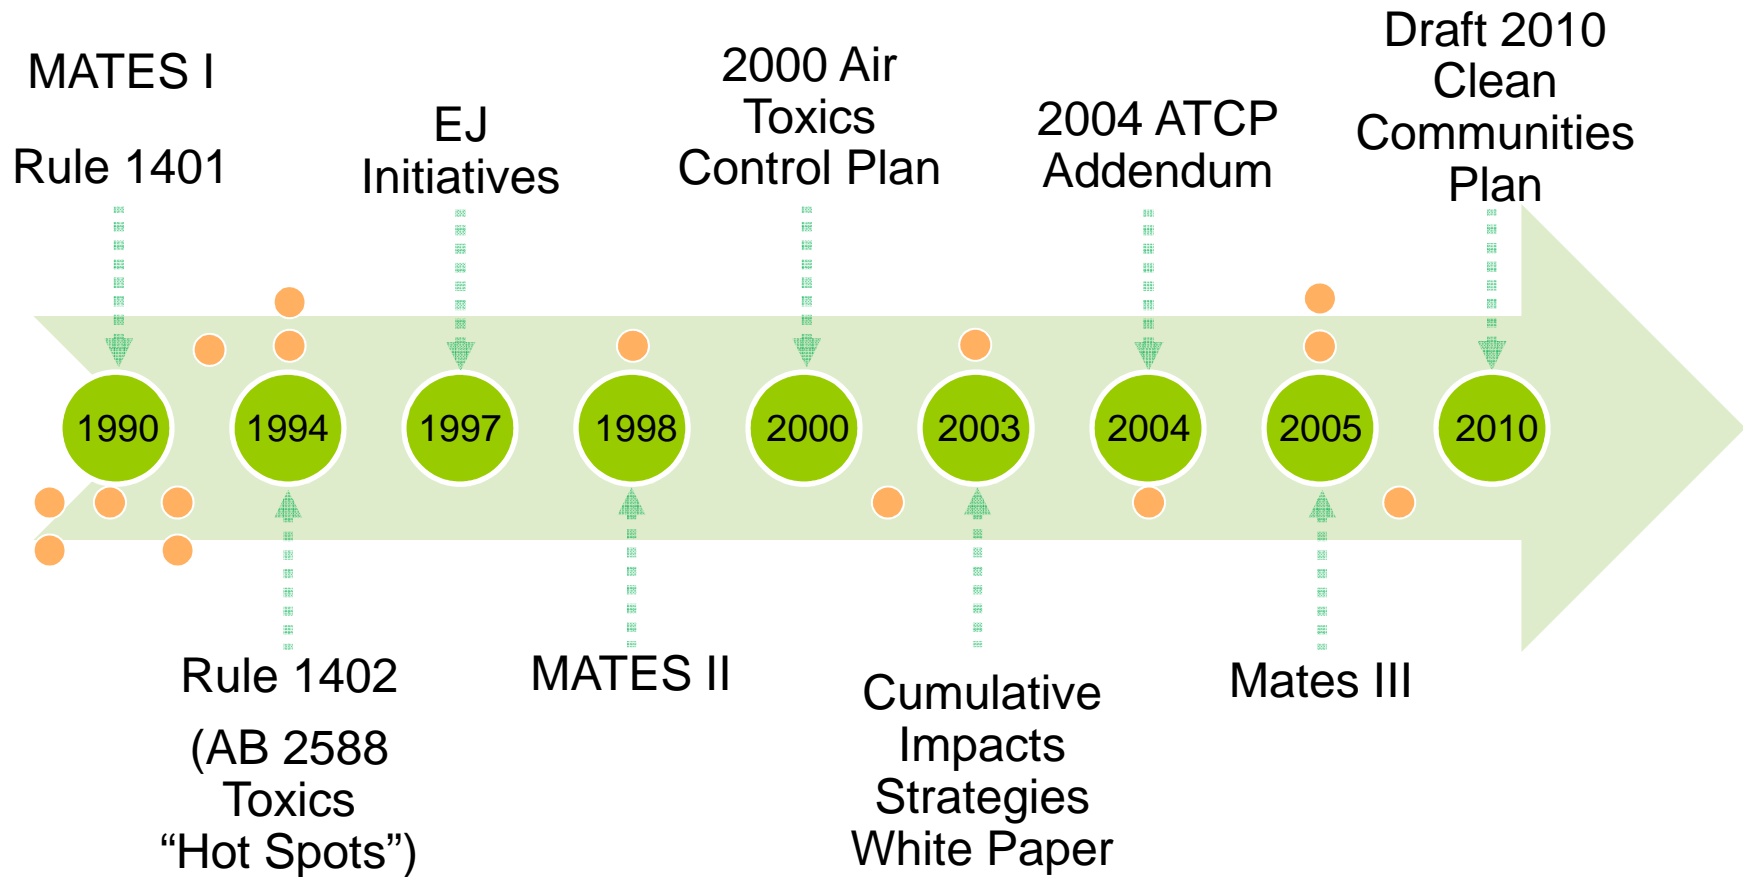

***Working Together to
Build Cleaner Communities***

SCAQMD Governing Board Meeting

April 2, 2010

Background

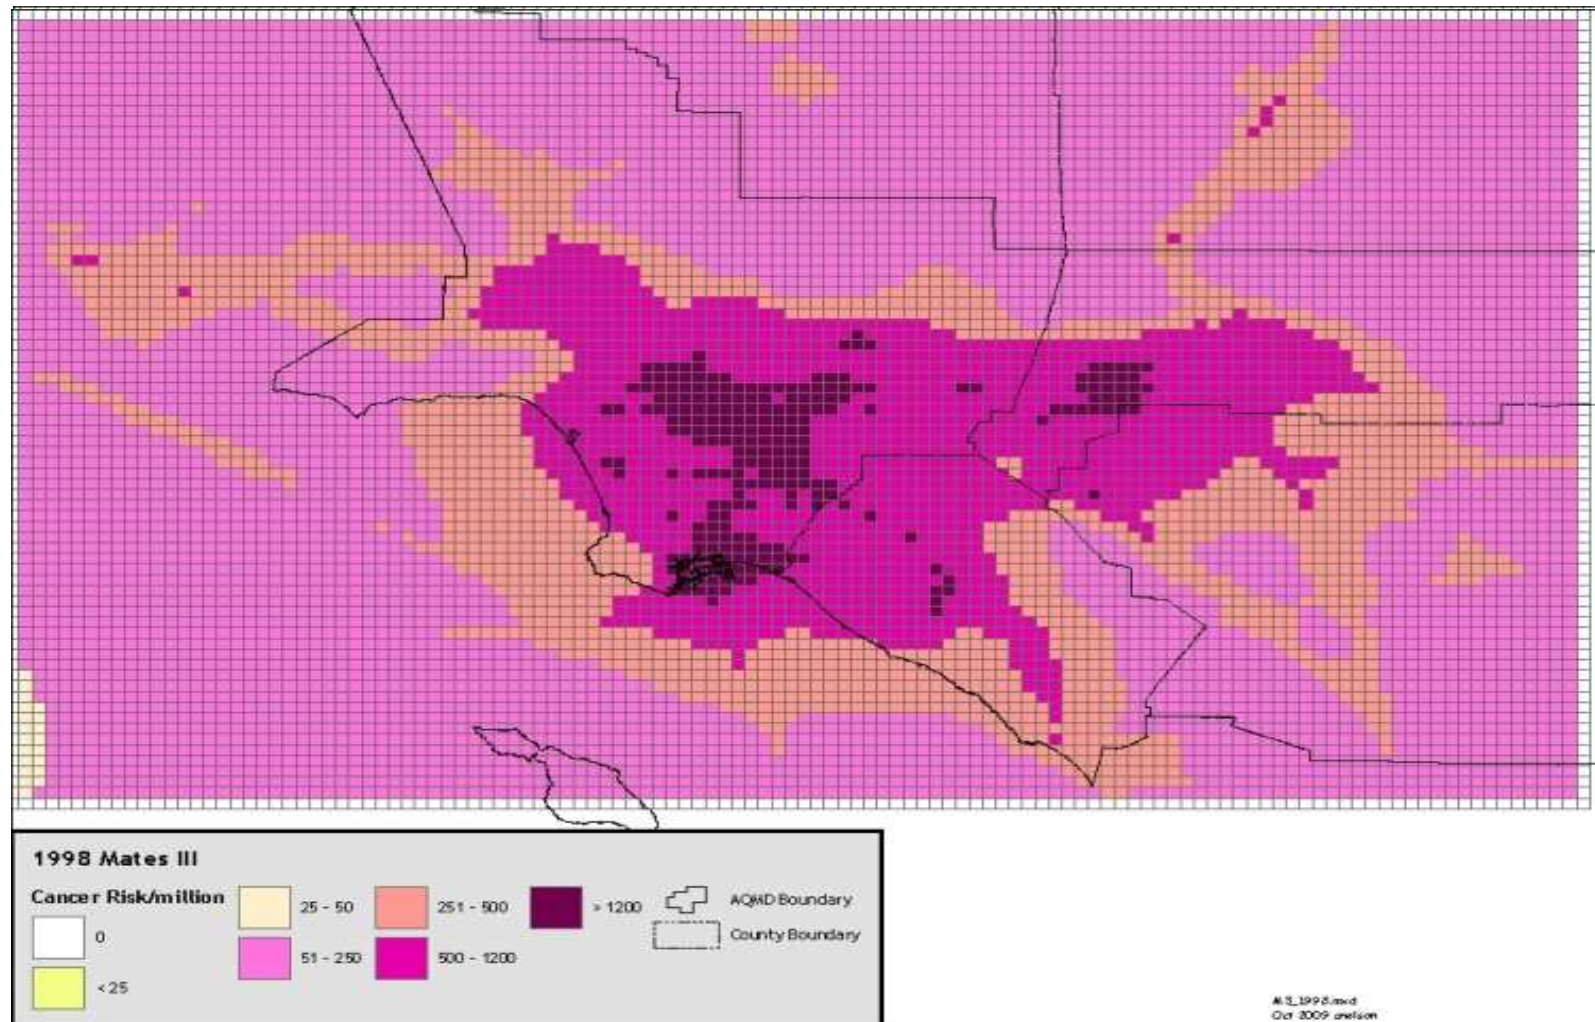

- Represents adoption of a stationary source-specific toxic rule

2010 Draft CCP

- 2010 Draft Clean Communities Plan is an update to Air Toxics Control Plan
- Builds on existing air toxics regulatory program
- Developed with input from Working Group

Exposure Reduction Progress

Localized Air Quality Issues

*Alone we can do so little;
Together we can do so much.*

Helen Keller

2010 Draft CCP Approach

- Continue to build on existing regulatory structure
 - Develop additional source-specific measures
- Cumulative air toxics
 - Pilot program
 - Utilize variety of implementation approaches to address cumulative impacts

Source-Specific Measures

Lead Emissions

Lead Paint for Pre-1978 Structures

Identifying New Air Toxic Sources

Alternative Assessment for Use of
Acutely Hazardous Sources

Indirect Sources

Cumulative Impacts Implementation Approaches

Community Exposure Reduction Plan (Pilot)

- Tailored to the air issues in community
- Pilot program starts with two communities
 - San Bernardino
 - Boyle Heights and surrounding areas
- Work with community to identify air issues, develop and implement solutions
- Use structure as template for other communities

Next Steps

- Public review
- Additional Stakeholders Working Group Meetings
- Stationary Source Committee Reports
- Public Workshops
- Return to Governing Board Fall/Winter 2010

Action is Needed
to Improve Air
Quality for Our
Future Generations
